Dear Department of Human Services,

There is a custody case in LaSalle County (15-F-153) where my child, Madeline Kramer: B-day: 01-20-203, was made to be a corporation through inappropriate proceedings. They labled her name as "Connor Lee Robbins" which means they can abuse her and I both apparantly, and they have. They allegedly sold my daughter for sexual intercourse with their friends and powerful government officials. They have tried to kill me due to their apprehension that I may end their corporatizing of my daughter, Madeline Kramer. At my recent stay in the LaSalle County Jail, due to a corrupt O.E. that was filed against me for trying to have my daughter safe and protected away from harm- They tried to deliberately kill me inside that jail of theirs instead of provide me with proper services, on behalf of the Maritime Law Cult Sect which made them feel they had permission to do this on my daughter's behalf. They have tortured me in there and due to duress I've suffered, they alleged I was unfit to stand trial and held me there longer while they abused and tried to completely kill me. They sent me to Alton Mental Health Center where I'm at now and they aren't feeding me here either. There are allegedly some higher-ups here who are in on the Maritime Law Cult and I am not safe here at all. They plan to have me sent back to

that jail with a prescription that I am denying taking to avoid poisons so that they can stab me with a needle at the jail which will probably be filled with poisons like cianide as they have expressed it would if I denied taking medications from them here and the case got transferred back to the LaSalle County Jail.

The O.P. that was filed against me and that I'm in here on was made in error. The Father never fully acknowledged that he was the Father of our child in the 15-F-153 case as he was afore mentioned as the Father to Connor Lee Robbins and never to the child Madeline Kramer. Her name was secretly taken off the record without my knowledge and had I known about this, I would have never got involved in the Maritime Law Cult. I made a bad move by accepting a visitation agreement around April 24, 2014 and after that things went downhill. I was made out to be the bad guy in every way shape and form possible. She was molested by her Dad, Grandma, Grandfather, local church - directly next to the police department and local police officers as well as their friends, family, local government personnel, some F.B.I and Illinois cult members. During my hiring a private investigator from Chicago Illinois, he told me there were graves dug for us by these people and so I wasn't sure what

was going on. I made aware to the authorities who were in on this what was going on prior to this that the Dad had threatened to murder us and they all went against their duty and got her placed with him so they could get in on the abuse with him. This caused her harm and my life to be risked on a regular basis - which my life is still in danger because of them corruptly conspiring against me to get her placed with the dad so they could abuse her with him. I cannot stand being here for the fact that I cannot have safe food to eat and am made out to be some kind of psycho instead of caring about the welfare of my child. This all needs to be resolved so I can return to a normal life and so I can return to a relationship with my daughter and we can have normal lives. She has got to have her mom in her life otherwise she'll never develop fully and might even die based on the threats of the Father. She is not a horrible person unless he has given her A.I.D.S. or H.I.V. and she definately doesn't deserve this either. She's done nothing wrong and doesn't deserve torture for her crimes. This case has got to be something

other than the death of both of us. There are way too many years ahead of the both of our lives to have abuse and torture protocol control our lives and potentially be the end of us before our lives have really even got started.
This child deserves a Guardian Ad Litem and a different case title to resolve her name as Connor Lee Robbins into
